

## Summer 1

**Learning Focus:** To know the multiplication and division facts for the 10 times table.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts instantly.

### Representations

$\times 10$	$\div 10$
$1 \times 10 = 10$	$10 \div 10 = 1$
$2 \times 10 = 20$	$20 \div 10 = 2$
$3 \times 10 = 30$	$30 \div 10 = 3$
$4 \times 10 = 40$	$40 \div 10 = 4$
$5 \times 10 = 50$	$50 \div 10 = 5$
$6 \times 10 = 60$	$60 \div 10 = 6$
$7 \times 10 = 70$	$70 \div 10 = 7$
$8 \times 10 = 80$	$80 \div 10 = 8$
$9 \times 10 = 90$	$90 \div 10 = 9$
$10 \times 10 = 100$	$100 \div 10 = 10$
$11 \times 10 = 110$	$110 \div 10 = 11$
$12 \times 10 = 120$	$120 \div 10 = 12$

### Key Vocabulary

- Multiply
- Division
- Share
- Groups of
- Times
- Divide
- Divided by
- Lots of

### Getting Started

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

### Suggested Activities

- [10 Times Table Song](#)
- **Questions and answers** - make some question cards with the multiplication and division questions on. Make a second set of cards with the answers. Can they match the question and the answer? Add a timer element to see how fast they can do this.
- **Use what you already know** - If your child knows that  $5 \times 10 = 50$ , they can use this fact to work out that  $6 \times 10 = 60$ .
- **Test the Parent** - Your child can make up their own tricky division questions for you e.g. What is 100 divided by 10? They need to be able to multiply to create these questions.
